

Sea Squirts Summer 2010

2nd and 4th Fridays

Our Sea Squirts preschool programs are designed for children 2-3 years old with an accompanying adult. This summer (June – August) we are offering Sea Squirts twice a month! On the 2nd Friday of the month we will be focusing on how animals move. On the 4th Friday of the month our focus will be backyards.

Our programs are sensory based and focus on learning for toddlers and adults.

To Register:

- Call our group coordinator at 541-867-3474 Ext. 5301
- **Fees:** \$15 members, \$20 nonmembers per adult/child pair
- Register at least one week in advance
- Classes fill up quickly, so register early

2nd Fridays, 10:30am – Noon: How Animals Move

June 11, 2010 **Fantastic Flyers:** Take flight with some of our fine feathered friends. Flying underwater and through the air may be difficult for some, but our marine birds make it look easy. It's time to stretch your wings and fly like a puffin, through songs, crafts and stories.

July 9, 2010 **Super Swimmers:** Splish splash, we're taking a bath! It's time to put on your flippers and your fins and get ready to learn all about how our slippery Aquarium friends swim. We'll have fun singing songs and dancing like a fish out of water as we uncover the secrets to what makes ocean animals sensational swimmers.

August 13, 2010 **Wonderful Walkers:** Have you ever tiptoed through a tidepool or danced like a sea lion? Well, here's your chance! Join us as we investigate the different ways sea creatures walk around in and out of the water. You'll do the sea lion shimmy and side step like a crab as we discover the incredible ways some sea creatures get around.

4th Fridays, 10:30am – Noon: Backyards

Friday June 25, 2010 **Backyard Detectives:** In this exciting class, we will learn everything from butterflies to bunnies that may be found in your backyard. Join us for a romp through the Aquarium's backyard to look for some of our hidden animals. Songs, crafts and stories will be included.

July 23, 2010 **Pond Pals:** Leap onto lily pad fun! Explore what lives behind the log, sneaks through the grass and swims under the water of your friendly neighborhood pond. Discover why frogs, bugs, and fish call this wet wonderland their home. Just add water!

August 27, 2010 **Winged Wonders:** What's in the air? Birds, bats, and bugs of course! This class will explore the winged world of the Oregon coast through songs, crafts, and stories.
