

ESTUARY INVESTIGATIONS

Amplify your Nature Journaling with Scientific Tools!

Join the Oregon Coast Aquarium and the Yakona Nature Preserve & Learning Center on **Thursday, June 18th** as we explore student-driven investigations that combine nature journaling with scientific tools.

- Discover simple ways your students can use scientific tools to dive deeper while nature journaling to develop strong data reasoning and critical thinking skills!
- Build your own quadrat and transect to take back to your classroom to use with your students!
- Work together with other teachers to design investigations for your students.
